

# You'll Never Change Me

Chron Gen

The first time, I ever saw you  
I simply had to - adore you  
we got friendly, you liked me too  
we struck together like a pot of glue

You'll never change me (3x)

You once tried to change me to  
a smart and fancy, just like you  
and now you see, you shouldn't have tried  
'cos rather than change, I would have died

And now you see, you shouldn't have tried  
'cos rather than change, I would have died  
I guess that I'm not right for you  
so don't go tellin' me what to do
