

Jump To Jive

Chronic Future

Makin' 'em move from jump to jive
Nothing beats the feeling of feeling it live
We rockin' loud ever since '95
But check it out y'all now we gonna dive
Into the millennium for a force of completion
Like helium yeah we got the power to heal you son
Dealing out fun just like crack
Yo we ain't never lacking substance

Everybody make a move
Move your body to the groove
Making them jump to jive
Nothing beats the feeling of feeling...

Possessed by the spirit of the drums
Pressed emotionally by the labels' thumbs
Unit of force with combined consciousness
Doing it like this but now time to address
Music with the lyrical combination
Hesitation is to think trust your instinct
Life is multiple choice with multiple voices
So choose your moment's chain link

Electroshocking keeps me rocking all night

...All night long is the way that I flip this verse
When I freestyle yo it's never rehearsed
To emphasize a point I might curse
With energy soon I will burst
Don't lose the groove and don't lose the vibe
I have just been phunktefied
I'll keep it rolling and I'll keep it rocking
Without delaying or without stopping
