

## Forbidden Path

### Chronology

I've heard too many lies  
I don't want to hear them anymore  
All those family ties  
Just hide from me the truth  
Like a big, black wall

Cousin of son:  
I tell you now  
What I can recall  
I saw him with dangerous men  
Before he left us all  
They stood around  
Like holy chosen ones  
I asked him who they were?  
He said: „The Guardians”

It's hard to understand  
What happened to him at that time  
Try to find a man  
I think he was his friend  
Maybe he's alive

I tell you now  
What I can recall  
Find this man he knows much more  
About your fathers fall  
Don't be afraid  
His place is not so far  
But are you sure you're ready to know?  
The truth is so bizarre

Those were so troubled times  
He was twisted by hazy ideas  
But I saw the fear in his eyes  
And one day he went away

I know this road  
I follow the trace  
I'll find this man I need to know  
What was my father's fate  
I don't turn back  
And I'm not afraid  
They say it's a forbidden path  
But I don't care
