

Quell The Souls In Sing Ling Temple

Chthonic

Fire and ice - attack as one unite
Light and dark - courage and strength, we fight
Ying and Yang - chaos entwined in spite
Steel and blood - all are in same tonight

Across the o-gu-lam gather
The temple lights asunder
Demon creatures crawl upon the banks
Horrific wonder
Now overflowing in fire
The burning oil flows
Statues of the divine
Start to melt and decompose

Fire and ice - attack as one unite
Light and dark - courage and strength, we fight
Ying and Yang - chaos entwined in spite
Steel and blood - all are in same tonight

Piece by piece pillars crash
Drop by drop the tears fall
Brick by brick sealed in hell
At their side shield them all

In your name we fall

Blood red sun set, a new dawn arise
Survived the harshest fight
Now find my demise
All that will be, entrusted now to you
From once again coming true

Temple is covered by potent seals of hell
Tsing-guan's power is tied up by the spells
Blood on my face, the proudest mark of all

Death awaits us all
Empire's head will fall

Death awaits us all
Empire's head will fall
