

I Want to Be Your Driver

Chuck Berry

I want to be your driver, I want to be your driver
I would love to ride you, I would love to ride you around
We'll be ready when you want me to drive you on downtown

Yeah I want to drive your, your long and beautiful
Your rounded-body, wheel-to-roll limousine
I've never had the thrill of riding such a wonderful machine

We'll roll 'round the mountain, drive down in the valley
I would drive it all over, I would ride you home with ease
You will enjoy every journey, it will be my aim to please

So let me be your driver, let me be your driver
I would love to ride you, I would love to ride you downtown
Drive you so slow and easy you won't want to put me down
