

The Song of My Love

Chuck Berry

This little love-light of mine are you gonna let it shine
This little love-light of mine are you gonna let it shine
This little love-light of mine are you gonna let it shine
Let it shine, let it shine, let it shine

With your arms wrapped around me my little love-
light will shine
With your arms wrapped around me my little love-
light will shine
With your arms wrapped around me my little love-
light will shine
Let it shine, let it shine, let it shine

Someday soon you promised me you'd make my love-light shine
Someday soon you promised me you'd make my love-light shine
Someday soon you promised me you'd make my love-light shine
With a kiss, your arms around me, make it shine

Wee, wee hours come and let my love-light shine
In the wee, wee hours let my lil' love-light shine
In the wee, wee hours let my lil' love-light shine
Let it shine, let it shine, let it shine
