

## A Tear

Chuck Jackson

A tear, can't stop this little drop of water called a  
tear  
Ever since you went away, this little drop of water's  
been here  
So my darlin', tell me why, why you want to make me cry  
Come here, and stop this little drop of water called a  
tear

As long as you're in love, you'll find as you go through  
the years  
From your heart, love will bring laughter  
And from your eye, love will bring tears, tears, tears,

tears  
A tear, can't stop this little drop of water called a  
tear

When you break my heart, this little drop of water  
appears  
Mmmm. I guess its something, I can't explain  
Why this little ball of rain falls from my eyes,  
A little drop of water called a tear

Oh. I guess its something, I can't explain  
Why this little ball of rain falls from my eyes,  
A little drop of water called a tear
