Freckle Song

Chuck Prophet

I like the way you freckle I like way you peel I love to see your hair in a mess

It?s been a long September It?s gonna be a longer winter Let me help you out of that dress Before you catch a cold

We?re rising and we?re falling Falling and we?re rising, lost on the invisible sea A thousand stolen kisses, a crime without a witness Throw me overboard captain would you please I just can?t stand myself

I never liked your brother Couldn?t stand that little bugger I had to see him every day Your father at the factory, he always had it in for me Ain?t going back there, no how, no way, never again

I like the way you freckle I like way you peel I love to see your hair in a mess

It?s been a long September Gonna be a longer winter Let me help you out of that dress Gotta feel your skin upon my skin Skin upon, skin upon
