

Enough Is Enough

Chumbawamba

Open your eyes
Time to wake up
Enough is enough is enough is enough
Give the fascistman a gunshot

Trying an trying again to get this damn thing done
It can't done
Come kill the fscist with a gun
'cos it's stoping us from unity
We cannot see reality
Just vanity insanity fusion cannot stand it see
No man fascist man will ever get me outta the land
So understand fusion plan to stop them with a bang
We sang and sang to make the people all unite
Not fight but fight because the leaders don't think right
You burnt us in the part you know it won't happen again
So black and white take a stand and all try to defend all of th
e people and the children who are living in the past
Just blast and blast don't make the fascist man last

Open your eyes
Time to wake up
Enough is enough is enough is enough
Give the fascistman a gunshot

On and on and on you the feeling's so strong
So long
It's wrong
I'm telling you it's wrong
Destruction confusion and blaming it on the colour
I wonder in horror 'cos the people start to follow
All the leaders and the rulers who are putting up the fence
It's dens immense and you say you're talking sense
Bull bull I want to say it full
But people on the radio you know will make a pull
So I try to tone it down to make the whole world know that the
language of my violence will proceed in my show
Flow flow to make the fascist man know
That unity is here and unity will grow

Open your eyes
Time to wake up
Enough is enough is enough is enough
Give the fascistman a gunshot
