

# The Devil's Interval

Chumbawamba

If you should walk out in the morning  
To fetch your water from the well  
Good people please beware  
Little children do take care  
Watch out for the devil's interval

When strumming through the woods in springtime  
When evening blackbirds coo and caw  
Such sounds of joy and sadness  
May hide the prince of darkness  
Beware the devil's interval  
Beware the devil's interval

The kettle whistlin' in the kitchen  
The chiming clock that's in the hall  
Should they sound e flat to a  
Then lucifer is on his way  
Here comes the devil's interval  
Here comes the devil's interval

Don't take your loved one to the dance hall  
Lest music drag you down to hell  
Pay no mind to songs like these  
For I may be Mephistopheles  
Singing the devil's interval  
Singing the devil's interval

Aaahaa...Aahaa...Aahaa...Aah (3x)
