

## Walking into Battle with the Lord

Chumbawamba

A new crusade to the Holy Land  
An army of men under my command

Fight the good fight here at home  
Send those men to kingdom come

Take my aim with a higher will  
Trust my Lord to hold me still  
Say 'amen' and shoot to kill  
Walking into battle with the Lord

With open arms on Judgement Day  
Teach the children how to pray

Faithful, blind, we all believe  
I was taught by Adam but I blame it on Eve

All my words in kindness came  
Your souls in mercy to reclaim  
Cleanse this world of sin and shame  
Walking into battle with the Lord

Holy Father, Mother Tongue  
Manna from heaven, right from wrong

Take my place on the witness stand  
Trigger fingers, praying hands

When two men meet on the field of war  
They both ask 'what are we fighting for?'  
And haven't we heard this all before?  
Walking into battle with the Lord
