

We Don't Want to Sing Along

Chumbawamba

Tap, tap, tap in the chatrooms
We're learning how to make a bomb
Hmm, well whatever
We don't want to sing along

We don't want to sing along
We don't want to sing along
We know every word to the song
But we don't want to sing along

Oh Marilyn, she'll desert me
Telling me I was wrong
She's all lipstick and instinct for money
But we don't want to sing along

We don't want to sing along
We don't want to sing along
We know every word to the song
But we don't want to sing along

Listen to the bullies singing
To prove that they all belong
You'd better watch your step, bully
'Cause we don't want to sing along

We don't want to sing along
We don't want to sing along
We know every word to the song
But we don't want to sing along

We don't want to sing along
We don't want to sing along
We know every word to the song
But we don't want to sing along

We don't want to sing along
We don't want to sing along
We know every word to the song
But we don't want to sing along
