

# Deliverance

## CHVRCHES

Careful when you're swimming in the holy water  
Drowning in your own beliefs  
Careful when you're standing at a broken altar  
Asking if we feel relief  
Careful when you're looking for a true confession  
Mirror what you wanna see  
Careful when you're telling us about obsessions  
Sayin' that we're never free

You better hold on, hold on, hold on  
You better hold on to what you love  
You better give up, give up, give up  
You better give up on giving up

Is it deliver-iver-iverance  
If you can never, never change?  
Is it deliver-iver-iverance  
If you hurt me in exchange?

Trust me when I tell you about my own convictions  
Made my mind up long ago  
Trust me when I tell you it's a contradiction  
Wishin' that I didn't know  
Trust me that I struggle with all your destruction  
Screamin' that I told you so  
Trust me when I talk about the disillusion  
Building up and letting go

You better hold on, hold on, hold on  
You better hold on to what you love  
You better give up, give up, give up  
You better give up on giving up

Is it deliver-iver-iverance  
If you can never, never change?  
Is it deliver-iver-iverance  
If you hurt me in exchange?

Look in my eyes when you say it, say it  
Look in my eyes like you mean it, mean it  
Look in my eyes when you say it, say it  
Look in my eyes like you mean it

Is it deliver-iver-iverance  
If you can never, never change?  
Is it deliver-iver-iverance  
If you hurt me in exchange?

It's a deliver-iver-iverance  
Look in my eyes when you say it, say it  
If you can never, never change  
Look in my eyes like you mean it, mean it  
It's a deliver-iver-iverance  
Look in my eyes when you say it, say it  
If you hurt me in exchange  
Look in my eyes like you mean it, mean it, mean it

Like you mean it  
Like you mean it  
Like you mean it
