

# Forever

CHVRCHES

Savor the taste  
Savor the pain  
I don't expect you to release me  
Jumping the gun  
Holding my tongue  
I'd never ask you to forgive me

And you will never see my side  
And I will always think I'm right  
But I always regret the night  
I told you I would hate you 'til forever

(x2)

Forever, forever, forever, forever  
Forever, forever, forever, forever  
Forever, forever, forever, forever  
I told you I would hate you 'til forever

Playing the part  
Playing the game  
I don't expect you to believe me  
Missing the mark  
We tear it apart  
I'd never ask you why you need me

And you will never see my side  
And I will always think I'm right  
But I always regret the night  
I told you I would hate you 'til forever

(x2)

Forever, forever, forever, forever  
Forever, forever, forever, forever  
Forever, forever, forever, forever  
I told you I would hate you 'til forever

What else should I say?  
What else could I do?  
Maybe it's too much for you  
What else should I say?  
What else could I do?  
Maybe I am just too much for you

(x2)

Forever, forever, forever, forever  
Forever, forever, forever, forever  
Forever, forever, forever, forever  
I told you I would hate you 'til forever
