

# Get Away

CHVRCHES

I can only see you when I close my eyes.  
There's nothing left of you here.  
We had the time, we had the time.

The things that I remember I do not regret.  
They don't mean a thing here.  
We had the time, we had the time.

I'll be your guide  
So you can see the other side  
Then i will never let you get away  
Never let you get away

I'll hold you hands so you can see  
Crossing your heart and hoping  
To never let you get away,  
Never let you get away.

Everything you prayed for is not overhead  
No one else will save you  
Wake up your mind,  
Wake up your mind.

Trust me when I tell you  
We are on our own.  
Overlap your fingers  
And run through the pines.  
We'll run through the pines.

I'll be your guide  
So you can see the other side  
Then i will never let you get away  
Never let you get away

I'll hold you hands so you can see  
Crossing your heart and hoping  
To never let you get away,  
Never let you get away.

I'll be your guide  
So you can see the other side  
Then i will never let you get away  
Never let you get away

I'll hold you hands so you can see  
Crossing your heart and hoping  
To never let you get away,  
Never let you get away.

Never let you get away (4x)
