

I am talking in my sleep
Hiding inside my dreams
Fighting inside my head
Scaring myself to death
We live in a wonderland
Like blood isn't on our hands
When will it be enough?

When will I say I knew we had to get away?
Knew we had to get away, knew we had to get away
From the storm

Can't live forever with my head in the clouds
Can't predict the weather with my feet on the ground
You tell me that it'll be alright
But I don't know if you're right
I can't live forever with my head and my heart in the clouds

Lie, I'm counting every sheep
But these rabbit holes run deep
Trying to be so right
Desperate to start a fight
All of this pointless talk
Why can't I turn it off?
When will it all just stop?

When will I say I knew we had to get away?
Knew we had to get away, knew we had to get away
All along

Can't live forever with my head in the clouds
Can't predict the weather with my feet on the ground
You tell me that it'll be alright
But I don't know if you're right
I can't live forever with my head and my heart in the clouds

Can't live forever with my head in the clouds
Can't predict the weather with my feet on the ground
You tell me that it'll be alright
But I don't know if you're right
I can't live forever with my head and my heart in the clouds
