DUI

In the middle of the highway Me and my babe R. Kelly on the radio Let it play It's funny I ain't even drink shit And I'm so intoxicated I think I'm over my limit When you're near me You've got your hands on my thigh I've got my hands on the wheel and the other... I'd rather not mention I'm running every light I can't concentrate on... the road Losing all control All because I'm driving under The influence of your love DUI, DUI, DUI, DUI I'm driving under The influence of your touch (oh) DUI, DUI, DUI, DUI I might have to pull over (oh) I might have to pull over (oh) I bet the law would arrest me If they knew what I was thinkin' I'm sure it looks a little crazy But I'm loving it So put them handcuffs on me Keep talking to me dirty I'mma put it on cruise control as I let go Your hands on my thigh I've got my hands on the wheel and the other... I'd rather not mention I'm running every light I can't concentrate on... the road Losing all control All because I'm driving under The influence of your love DUI, DUI, DUI, DUI I'm driving under The influence of your touch (oh) DUI, DUI, DUI, DUI I might have to pull over (oh) Oh, oh, oh And it's so hard to steer Put your lips to my ear But I'm giving you the right of way

Ciara

Do what you want to me baby Lipstick all over your neck These seats are dripping with sweat Here's a night we won't forget
