

Heavy Rotation

Ciara

Oh I, oh I, yeah, yeah, yeah
Turn it up, turn it up, turn it up, turn it up
Turn it up, turn it up, turn it up, turn it up
Turn it up, turn it up, turn it up, turn it up

I don't want anybody to know
How much my body craves you
Every time I come around
I know you got people over, chilling on your sofa
I love watching you watch the game, when it's over
I hope that you're thinking the same
What it do?
I'm trying to have a private party in your room
I'm feeling kinda naughty, how about you?
Turn your bed into a dance floor
Just lock your door and put on your radio

Now turn it up, turn it up, turn it up, turn it up
I don't want them to hear what we're doing
So just turn it up, turn it up, turn it up, turn it up,
I'll be screaming so loud, don't you dare turn it down
Turn it up, turn it up, turn it up, turn it up,
Baby you can put it on me til your favorite song
Turn it up, turn it up, turn it up, turn it up,
Get that heavy rotation, all night long
All night long, heavy rotation
All night long, heavy rotation
All night long, all night long, all night, all night long

I don't normally do this,
But I'm breaking all the rules tonight
Yeah, it feels so right, every time I come around you
I know people are outside our door

I wanna be loved, baby you come and bring it out
So what it do?
We got to sound like a party in your room
I'm feeling kinda naughty, how about you?
Turn your bed into a dance floor
Just lock your door and put on your radio

Now turn it up, turn it up, turn it up, turn it up
I don't want them to hear what we're doing
So just turn it up, turn it up, turn it up, turn it up,
I'll be screaming so loud, don't you dare turn it down
Turn it up, turn it up, turn it up, turn it up,
Baby you can put it on me to your favorite song
Turn it up, turn it up, turn it up, turn it up,
With that heavy rotation, all night long
Turn it up, baby
I know you want me
I need your l-o-v-e
So baby work it on me, on me, yeah

Turn it up, turn it up, turn it up, turn it up,
I don't want them to hear what we're doing
So just, turn it up, turn it up, turn it up, turn it up,

I'll be screaming so loud, don't you dare turn it down
Turn it up, turn it up, turn it up, turn it up,
Baby you can put it on me to your favorite song
Turn it up, turn it up, turn it up, turn it up,
With that heavy rotation, all night long
So turn it up
