

Read My Lips

Ciara

Read my lips, read my lips
Baby get up out of this
La la la la la la
Read my lips, read my lips
Baby get up out of this
La la la la la la

So you're stayin' in tonight
Everybody's goin' out
Can we sit this one out, baby?
I got something else in mind
Close the blinds, dim the lights
And you better bring your appetite
I'll make you something real nice
If you like a lot of heat
Better come up in my kitchen, baby
Got everything that you like
Why don't you have a little taste?
Don't let nothing, don't let nothing go to waste

Down down, but you gotta savor it, savor it
I know it's your favorite dish
Down down, you better put yo feet up
You ain't leavin' til you eat it all up

I just wanna take care of you baby
You're the only one I wanna give it to
This is all for you
I just wanna take care of you baby
Read my lips boy that's all you gotta do
This is all for you

On the kitchen floor
Tonight you know it's going down
If you want some more baby
You know I can throw it down
Turn my oven on and it ain't gon' be no slowin' down
This is how it's going down, this is how it's

You can call it good time, we ain't gotta go out
You got a home cooked meal right here
Come on and take another bite
That's right, that's right
Keep on going til you're satisfied
It's the best you ever had
Once you taste a piece of that
You can never go back baby, yea
There's nothing else like this around town
Boy I got the sugar that can make you fall down

Down down, but you gotta savor it, savor it
I know it's your favorite dish
Down down, you better put yo feet up
You ain't leavin' til you eat it all up

I just wanna take care of you baby
You're the only one I wanna give it to

This is all for you
I just wanna take care of you baby
Read my lips boy that's all you gotta do
This is all for you

On the kitchen floor
Tonight you know it's going down
If you want some more baby
You know I can throw it down
Turn my oven on and it ain't gon' be no slowin' down
This is how it's going down, this is how it's

Read my lips, read my lips
Baby get up all in this
