

# Where You Go

Ciara

You go  
Do you go?  
Where you go?  
Go go go yea  
Where you go go go go go go go  
Where you go?  
Where you go?  
Where you go?

It was time when I seen you happy  
Where you go?  
It's been a minute since I've seen you smile  
Yea  
Where you go?  
Where you go?  
Where you go?  
Where you go?  
Where you go?  
Where you go?  
Where you go?

There's a lion in the sky  
It was brightened by your face  
I could see it in your eyes  
That you wouldn't part away  
Yea

So don't hold your feelings in  
You can trust me as a friend  
Whatever you need to make it right  
I'mma be standing right by your side

My love it goes on and on on  
Every single night and day  
I'mma be here for you on and on on  
Baby can you tell me? tell me  
Where you go?

It was time when I seen you happy  
Where you go?  
It's been a minute since I've seen you smile  
Yea  
Where you go?  
Where you go?  
Where you go?  
Where you go?  
Where you go?  
Where you go?  
Where you go?

And I wanna see and I wanna cry and I wanna hurt no more  
Don't have no fear, I got that cure, baby my love is pure  
I need you now now now (I need you)  
I'm stayin down down down

On and on on  
Every single night and day

I'mma be here for you on and on on  
Baby can you tell me? tell me  
Where you go?

It was time when I seen you happy  
Where you go?  
It's been a minute since I've seen you smile  
Yea  
Where you go?  
Where you go?  
Where you go?  
Where you go?  
Where you go?  
Where you go?  
Where you go?
