

Acid Rain

Cimorelli

Dani:

Paint me a picture
Show me your colors
I'm gone when I'm with you
But I'm better than ever

Lauren:

I breathe you in
You breathe me out
You just take it all away
You're acid rain in an endless drought
But you make it all okay

Katherine:

Take me to your place
You set me on fire
You tell me it's okay
While you burn me alive

Amy:

I breathe you in
You breathe me out
You just take it all away
You're acid rain in an endless drought
But you make it all okay

Lauren:

You tell me that you want me
But we both know that's not true
Cause you're a beautiful disaster
And I'll never be good enough for you

Think you're addicted to the chase
Think I'm addicted to the pain

Christina:

I breathe you in
You breathe me out
And you play me like a game
You're in my veins
Can't get you out
I'm addicted to the pain

Lisa:

Cause you don't have a piece of me
You've got all of me
And you're never gonna change
I let you in
You let me down
Cause you're never gonna stay

Dani:

You are never gonna stay
No you're never gonna stay
You are never gonna stay
You were never gonna stay
