

Brave Heart

Cimorelli

I am lost on my own
I'm afraid I'm a mess
Full of fear, full of shame
But you don't leave me there
Bring me to a better place
So I will praise your name

Your grace changes hearts
You heal up every scar
You hold us in your arms

I surrender to you
I want to be where you are
Where you lead I follow
I give you today
I place my life in your hands
Put my trust in your plans
Without you I'm falling apart
With you I have a brave heart

I will not fear with you
Out of my shadows, you
bring me back to the light
You were the solid ground
I so desperately found
When I thought I was done

Without you I fall
You're there before I call
I'll never be alone

I surrender to you
I want to be where you are
Where you lead I follow
I give you today
I place my life in your hands
Put my trust in your plans
Without you I'm falling apart
With you I have a brave heart

Guide my steps
Guide my steps
Guide my steps

Guide my steps
Guide my steps
Guide my steps

I surrender to you
I want to be where you are
Where you lead I follow

I give you today
I place my life in your hands
Put my trust in your plans
Without you I'm falling apart

You heal up every scar

You came to change my heart
With you I have a brave heart
