

Fall Back

Cimorelli

Why's there just one grocery store in this town
I was only tryna get some milk
The last thing on my list was to see you around
It's kinda awkward cause we never talk but still
When I saw your black Chevy it hit me my heart was pounding
Though I hate it you still get me
When you come around

I fall back wish we had it all back
Said I was done with you but I just can't run from you
Baby now it's all bad
You won't even call back
But every time I catch you looking at me like that
I, I fall back
I, I fall back

Saturday night at the homecoming game
I didn't even know you came to these
Sitting on these bleachers when I heard your name
Looked to my right and I couldn't believe
You're in that brown tee and those jeans my heart is pounding
Tryna hide it with some other guy
But I miss you and I wish that we could

Fall back wish we had it all back
Said I was done with you but I just can't run from you
Baby now it's all bad
You won't even call back
But every time I catch you looking at me like that
I, I fall back
I, I fall back

You'll just go and walk away with all your friends
We'll just leave without saying goodbye again
Wish I had it all back I wish you would come back
Everytime I see you I just
Fall back wish we had it all back
Said I was done with you but I just can't run from you
Baby now it's all bad
You won't even call back
But every time I catch you looking at me like that
I, I fall back I, I fall back I, I fall back I, I fall back
