

I'm A Mess

Cimorelli

I try so hard to ignore it
I try to pretend I don't care
But by the way my heart is pounding
It's impossible to pretend it's not for you

You act so innocent
I know you love to keep me waiting

I'm a mess, around you
There's no way out of this
And you know exactly what you're doing
You know I'm so done
It's not fair, can't stay
But I can't let you go

You know you're so confusing
And I should have already said goodbye
But just when I'm about to lose it
You turn this around to include me one more time

Try to dodge this bullet
But you got me all figured out

I'm a mess, around you
There's no way out of this
And you know exactly what you're doing
You know I'm so done
It's not fair, can't stay
But I can't let you go

You get a little closer to me while you push me away
Pretend you're doin' nothin' make me think I'm insane
You always leave me hanging when we make conversation
I know the things that you just say to me mean absolutely nothing

I'm a mess, around you
There's no way out of this
And you know

Exactly what you're doing

You know I'm so done
It's not fair, can't stay

But I can't let you go

Whoa, Whoa
Whoa, Whoa
Whoa, Whoa
Whoa, Whoa
