

Make It Stronger

Cimorelli

Make it stronger
Make it, make it stronger
Make it stronger
Make it, make it stronger

(Katherine)
Night skies and headlights
Backwards hats and light eyes
Pretty words and white lies
Yeah that's my world tonight

I'm gone and he knows
I lean back, he's pulling me close
My heartbeat warns me not to go
I never was good at listening though

(Dani)
He's wearing his favourite hat
and he's thinking his hair looks bad
No no it never does
but I think I'll keep that to myself
He knows I like to go to bed early
But he's still keeping me up, up, up

(Lisa+All)
This feeling's getting stronger
And I can't hold off any longer
I know you feel that spark
You see it in the dark
So hit me with that smile
And make it stronger

Make it stronger
Make it, make it stronger
Make it stronger
Make it, make it stronger

(Christina)
I said I won't fall
But you didn't help at all
You hold my hand as we walk
And you always open my door

Your tires on this road
You sing loud and miss all the notes
Drew on my car window
Left that behind so I know

(Amy)
You're wearing me down
I tried to keep these feelings out
But look at me now
I lost the fight

(Lisa+All)
This feeling's getting stronger
And I can't hold off any longer

I know you feel that spark
You see it in the dark
So hit me with that smile
And make it stronger

(Lauren)
Even the moon
looks a little brighter
I know I won't be getting
any sleep tonight
You smile and I'm goner
Just give me that feeling
and make it stronger

Make it stronger
Make it, make it stronger
Make it stronger
Make it, make it stronger

(Lisa+All)
This feeling's getting stronger
And I can't hold off any longer
I know you feel that spark
You see it in the dark
So hit me with that smile
And make it stronger

Make it stronger
Make it, make it stronger
Make it stronger
Make it, make it stronger

Make it stronger
Make it, make it stronger
Make it stronger
Make it, make it stronger
