

# You Got Me Good

Cimorelli

Alright, alright, I'll admit it

I like the way you rock it out  
You're like my first big break  
You know I love what you're all about  
You gave 'em more than you take  
You got me thinkin'  
There's a reason  
I've never felt this way 'bout anyone before

You're the one chance I didn't want to take  
But if I had not, it would've been my biggest mistake

Ooh, baby, you know you got me  
You're the last thing I wanted  
But the first thing I need  
Oh, baby, there's no escapin'  
Ooh, you got me good, uh oh

I know I'm in the right place  
When we're dancing in your car  
You know I love the way you say  
"I like you just the way you are"

You got me thinkin'  
There's a reason  
I've never felt this way 'bout anyone before

I gotta hold myself back  
You're the best I've got  
You know just where I'm at

Ooh, baby, you know you got me  
You're the last thing I wanted  
But the first thing I need  
Oh, baby, there's no escapin'  
Ooh, you got me good, uh oh

It doesn't get better than this  
I felt something I never knew I missed  
You're the mac to my cheese  
The drum to my beat  
The converse to my feet

If you were a grade, you'd be an A+  
Yeah!

Ooh, baby, you know you got me  
You're the last thing I wanted  
But the first thing I need  
Oh, baby, there's no escapin'  
Ooh, you got me good

Ooh, baby, you know you got me  
You're the last thing I wanted  
But the first thing I need  
Ooh, baby, there's no escapin'

Ooh, you got me good  
Oh, oh

Ooh, baby, you know you got me  
You're the last thing I wanted  
But the first I need  
Ooh, baby, there's no escapin'  
Ooh, you got me good, uh oh
