

## I Love You

Cindy Morgan

I don't know the words that I should say  
A symphony of letters set in place  
I only know  
That I love you  
I don't have a plane that I can fly  
Spelling out your name up in the sky  
I only know  
That I love you  
So tell me you love me  
Tell me that you feel the same  
Simple and true  
And better the old fashioned way  
I can't take you on a rocket to the moon  
Write a poem set in France to make you swoon  
I only know yeah  
That I love you  
Yes, I do  
So tell me you love me  
Tell me that you feel the same  
Simple and true  
And better the old fashioned way  
Even though a diamond shines like light  
Nothing on this earth could sparkle brighter than you  
I love you
