

Picture Me In Paradise

Cindy Morgan

Moon over me
Looking at the stars dancing up above me
Sometimes I feel it calling to me
Heaven's infinite dream, it's such a sobering thing
In all the universe You would chose to love me
I feel the arms that carry me through
Feel my heart close to you

Took some time to know how much you love me
To know how much I need you
To know how much I want to see You there

It's my destination and it's my inspiration
Just beyond this place and time
Looking at forever, the pieces come together
When I picture me in Paradise
When I picture me in Paradise

Oh, c'est la vie
Some would like to say life is all for nothing
Living on the surface at best, never seeing the rest
Came like a vision to me, somewhere from the blue
What a revelation?
Catching just a glimpse of Your grace
Set the pieces in place

Took some time to know how much you love me
To know how much I need you
To know how much I want to see You there

It's my destination and it's my inspiration
Just beyond this place and time
Looking at forever, the pieces come together
When I picture me in Paradise
When I picture me in Paradise

When we set our hearts and minds on things above
Then His Spirit leads us on and on and on and on

It's my destination and it's my inspiration
Just beyond this place and time
Looking at forever, the pieces come together
When I picture me in Paradise
When I picture me in Paradise
