

The World Needs Your Love

Cindy Morgan

Angels in waiting
For hearts breaking tonight
At the end of a hard day
And a hard life
Well it's a heavy load
Where do you go to lay it down?
Lay it down
In all of this confusion
There's only one solution
The world needs Your love
The world, the world, the world needs Your love
The world, the world, the world needs Your love
Heaven is with us
Jesus, You give us life
From the bottom of empty
You reached for me
And gave me a song
Now I sing it on and on
Night and day, yeah
Night and day
In all of this confusion
There's only one solution
The world needs Your love
The world, the world, the world needs Your love
The world, the world, the world needs Your love
It's hard to believe
Such a love comes free
Just open up your heart
Step out of the dark
Into the Light
