

Silent Scream

Cinema Bizarre

I was walking in the shadows
So nobody care
Your smile let me from the distance
And without the smallest chance

All these memories
They come back
When I'm asleep
You've taken my dreams

I don't need no fakes around me
All I want is you to be with me
Here I am
All these words they have lost their meaning
I just hope you hear my silent screams

I still hear the distant voices
Spreading rumours and lies
I took you to my darkest places
So far from the sky

I would charm you
we made vows to not let go
but where are you now?

I dont need no
fakes around me
all I want is you
to be with me
here I am
all these words have lost their meaning
I just hope you hear my silent scream

Im so numb
can you hear me?
here I am
There is something inside me
that still wants to fell

I dont need no
fakes around me
all I want is you
to be with me
here Im
all these words have
lost their meaning
I just hope you hear
my silent scream.
