

Pulling A Piano From A Pond

Cinematic Sunrise

We lost you long ago along the way
I never thought I'd be here without you
And every time I think about the way
I think that maybe I'm better off
Maybe I'm better off still

Wait until tomorrow and I'll be fine
Wait until tomorrow
You'll see that I'm worth waiting for

I'm right here just come out and say it
I try to reason with myself
Just think of all that life could be
If we could only capture what we've seen

I never thought I'd be here without you
Now I know that this is the way
I think that maybe I'm better off
I know that I'm better off still

Wait until tomorrow and I'll be fine
Wait until tomorrow
You'll see that I'm worth waiting for

I'm right here just come out and say it
I try to reason with myself
Just think of all that life could be
If we could only capture what we've seen

I'm right here
Come out and say it, come out and say it
Just think of all that life could be
If we could only capture what we see
