

Mr Kiss Kiss Bang Bang

Cinerama

I'll come back somehow
Because I love it when the sky is stormy
But I've got to leave right now
Before she comes round here looking for me

(What are you scared of now?)

Okay, I'll show you what she'll do if she finds out that I've been underhand
Kiss kiss bang bang

You don't need to call
Because I know that you don't really love me
Oh I don't mind at all
You're just the female version of me

(What are you scared of now?)

Okay, I'll show you what she'll do if she finds out that I've been underhand
Kiss kiss bang bang

Okay, I'll show you what she'll do if she finds out that I've been underhand
Kiss kiss bang bang
