

Airplane Dance

Circa Survive

They've got something green just for our condition
Safely in hands
Any unconscious faith you had in your convictions
On an airplane we dance

And even off the aircraft
Everything seems to make us laugh
Attention won't come easy
It never did
It never did
It comes easier

We've got something great so hopefully you trust us
And don't do too much
Any unconscious faith you had in your convictions
On an airplane we dance

And even off the aircraft
Everything seems to make us laugh
Attention won't come easy
It never did
It never did

So what you ended up having to say
You're always gonna owe me the same
We're all, we're all over the influence
We're collecting interest

And even off the aircraft
Everything seems to make us laugh
Attention goes away
But we always end up
On the plane
We're off the plane
On the plane
We're off
