

## Battle, My Love

Circa Survive

I know what you said  
And I've been torn apart since the day you left,  
And I don't think I can  
Do it again,

Too much in my own head,  
I'm totally obsessed with the shit you said,  
And I don't think I can  
Do it again,

Battle, my Love  
I will see you in the end,  
Carry my heart with you always,

How much should I take  
When everything you made you will someday break,  
And I don't think I can  
Build it again,

Too much in my own head,  
And I've been torn apart since the day you left,  
And I don't think I can  
Do it again,

Battle, my Love  
I will see you in the end,  
Carry my heart with you always,

I know what you meant  
And I've been torn apart since the day you left,  
And I don't think I can  
Do it again,

Too much in my own head  
I'm totally obsessed with the shit you said  
And I don't think I can  
Do it again
