

Brother Song

Circa Survive

Everybody wants to see the worst in you
Shadowed by the actions of a pact you can't undo
Who get left behind?
Who get left behind?

Oh, there must be a way to understand the things you do,
without getting too close to you.
Oh, I can't find a reason why you wasted all our time.
Who get, Who get left behind?

And I won't share your anger!
It doesn't do me any good to feel.
And we can't say our feelings the right way!
Until we learn, things won't ever change...no!

Oh, there must be a way to understand the things you say,
without letting it get to me.
Oh, I'm already getting used to being locked out of your life
Who, get out of alive.

And I won't share your anger!
It doesn't do me any good to feel
And we can't say our feelings the right way!
Until we learn, things won't ever change... no!
