

## Holding Someone's Hair Back

Circa Survive

Don't say a word  
Don't be grateful if I ever made you laugh  
Let's make believe what's at stake  
Here's more than just your reputation

She's got the photos but no recollection  
He's got the motive but no transportation

Purely courteous across my chest  
Are you cutting me out?  
Now after crawling inside?

Turn away your head  
What do I deserve, what do I deserve instead?  
It's a surprise you haven't caught on yet  
It's nothing personal you're an embarrassment  
Don't cut me out

We're offering nothing but the best accommodations  
Just tell us who you are  
Just tell us who you are.

We're offering nothing but the best accommodations  
Just tell us who you are  
Just tell us who you are.

Turn away your head  
What do I deserve, what do I deserve instead?  
It's a surprise you haven't caught on yet  
It's nothing personal you're an embarrassment  
Don't cut me out

It's a surprise you haven't caught on yet  
It's nothing personal you're an embarrassment  
Don't cut me out
