## **Sleep Underground**

You play that role for years There's nothing else But you don't need your ears To listen to yourself Don't talk back Keep your lips closed tight

Sleep underground tonight Sleep underground tonight Sleep underground tonight If you were meant to save me If you were meant to save me Then I didn't realize 'till now 'Cause this is just for you and I alone This is just for you and I alone This is just for you and I alone This is just for you and I alone

Sleep underground tonight Sleep underground tonight This is just for you and I. **Circa Survive**
