

# The Longest Mile

Circa Survive

You'll retire with some  
Well deserved space that you wanted years ago  
It's not the same as if you pushed it away  
Unescorted through the longest mile  
Now that it's over

I have some regrets  
But I can just forget them

I must admit going down within this ship  
I couldn't have a better crew to travel with  
If I make it in one piece back to land  
I will never sail again  
Never

Peace and quiet  
Start to interrupt,  
Your life is not the same as you had hoped  
Living up to all the things that you played down  
If you don't get a hold of it, I won't be around  
Now that it's over

I've made mistakes  
It's all I have to learn from

I must admit now going down within this ship  
I couldn't have a better crew to travel with  
If I make it in one piece back to land  
I will never sail again,  
Never

Now that it's over  
Now that it's over  
Now that it's over

I can't help  
But think that  
We're coming to the end  
If that is  
The case then  
I know we can't pretend  
To never make a sound again  
Never make a sound

I must admit now going down within this ship  
I couldn't have a better crew to travel with  
If I make it in one piece back to land  
I will never sail again,  
Never
