## **Deserve This**

**Circa Waves** 

It's fun, too many summers I haven't seen her then But I'll only love her To chase a dream, I miss you

Yeah the car drives to the suburbs I've never seen her crave All my home comforts, the TV screen The nights with you

Oh why do I deserve this? I was never good on purpose So why, oh why?

It's fun, too many summers I haven't seen her then But I'll only love her To chase a dream, I miss you

And oh why do I deserve this? I was never good on purpose So why do I deserve this? I was never good on purpose

Oh why, oh why?
