

Good For Me

Circa Waves

I'll be so bold to say you are the only one I've ever really known

Oh, my love, you're soft

And I know these roads like a hall from my home but I never settle down

Except my word is yours

You'll see, you'll see

I'm just no good for me

You'll see, yeah, you'll see

That I'm just no good for me

Good for me, good for me

Good for me

Take what you can from the back of your hand in all words I've seen

Change your meal and your tune

And despite what you say, every dog has its day, every night finds its home

Are you happy being alone?

You'll see, you'll see

I'm just no good for me

You'll see, yeah, you'll see

I'm just no good for me

You'll see, yeah you'll see

That I'm just no good for me

Good for me, good for me

Good for me
