

Good For Me

Circa Waves

I'll be so bold to say you are the only one I've ever really known
Oh, my love, you're soft
And I know these roads like a hall from my home but I never settle down
Except my word is yours

You'll see, you'll see
I'm just no good for me
You'll see, yeah, you'll see
That I'm just no good for me

Good for me, good for me
Good for me

Take what you can from the back of your hand in all words I've seen
Change your meal and your tune
And despite what you say, every dog has its day, every night finds its home
Are you happy being alone?

You'll see, you'll see
I'm just no good for me
You'll see, yeah, you'll see
I'm just no good for me

You'll see, yeah you'll see
That I'm just no good for me

Good for me, good for me
Good for me
