

# I Can Sleep Tonight

Circa Waves

You're a long time coming back  
From the hallway we were sat  
Where do you go?

I talk to friends and stubborn few  
Who drown their sorrows in the smoking room  
Fuck around now  
Jump about town

And I won't miss a single beat  
In case you're looking for me  
We all lose our grip tonight  
Tonight

And it's in my head  
That every sentence is seconds, when I look back you are  
Talking with him and I can hardly breathe right  
'Cause I cannot find you

For the life of me  
Please give me something  
So I can sleep tonight  
So I can sleep

Your feet are [?]  
You lost yourself in your cigarette  
Where do you go?  
Only you know

I talk to friends and stubborn few  
Who drown their sorrows in the seedy room  
Fuck around now  
Jump about town

And I won't miss a single beat  
In case you're looking for me  
We all lose our grip tonight  
Tonight

And it's in my head  
That every sentence is seconds, when I look back you are  
Talking with him and I can hardly breathe right  
'Cause I cannot find you

For the life of me  
Please give me something  
So I can sleep tonight  
So I can sleep tonight

Wait just a minute  
I'm not growing up just yet  
I've got a knot in my stomach  
That I cannot untie

If love has got a limit  
You are mine, that is just right  
I will keep you in my mind

'Cause tonight I let go

And it's in my head

That every sentence is seconds, when I look back you are

Talking with him and I can hardly breathe right

'Cause I cannot find you

For the life of me

Please give me something

So I can sleep tonight

So I can sleep tonight
