

# Ghost of the Devil

Circle II Circle

Look inside the curse of creation  
There you'll find the source of damnation  
Through the eyes of those who passed beyond  
They only speak by tearing us apart

When I first got word of the vision  
Got a sense of a new religion  
I lost all sense of the outside  
I turned away from a normal life  
Got my high from a force so vicious  
Came alive with an act of vengeance  
Now I never want to live without it  
Got to finish what I started  
Can you feel the power

Now we ride  
Into the edge of night  
To a world we've found  
In the cover of darkness  
Come lead us now  
Eternal life is ours  
Just submit your power  
State your final vows  
To the ghost of the devil

Wasn't long 'til I knew I could never die  
Made friends with the dead of the other side  
Took control of the situation  
I can see their faces beckoning  
I can hear their voices calling me

Can you taste the madness  
Can you feel the laughter  
Can you feel the life is fading  
My final thoughts escaping

Now we ride  
Into the edge of night  
To a world we've found  
In the cover of darkness  
Come lead us now  
Eternal life is ours  
Just submit your power  
State your final vows  
To the ghost of the devil
