

## In Your Eyes

Circle Jerks

when it first happened  
it was nice it was sweet  
now it's getting older  
and we're finding that it's not so sweet  
smiles growing cold  
perfumes getting stale

i can see it in your eyes  
all the lies and alibis  
i can see it in your eyes  
all the lies and alibis

happiness together honey  
there's just no way  
our love has seen much better days  
it's over now  
yes it's gone  
no one's at fault  
no one's wrong

i can see it in your eyes  
all the lies and alibis  
i can see it in your eyes  
all the lies and alibis
