

Rats of Reality

Circle Jerks

fading vision of a life unlived
you don't regret a single thing you did
don't wanna push the button
don't wanna be dead
just got to feed the creature inside your head

no no no you got no brains
in that thick skull
the rats of reality have eaten them all

one more hit down the left field wall
can't see what's real or fantasy at all
still have your imorals
but they're hidden today
it doesn't matter ,your brains in decay

[chorus]

fought the real ones,illusions too
so depressed,don't know what to do
forget about angels ,devils as well
there's only you and all the rats in hell

[chorus]
