

Everybody out for the money running  
around  
Talk about yourself all the time  
getting me down  
Think about the needs of the many, out  
of sight, out of mind  
Gotta get ahead turn my back leave you behind

Point blank- take a leap  
Pressure- play it as it lays  
You're getting to heavy for me  
Everyone you meet- you bow to thier feet

You're a status clinger, nice to meet you  
Who do you know, where do you go  
You're a status clinger, now i see you  
I can't take it  
You're a social climber status clinger  
Looking through you nothing to see  
You're a social climber status clinger  
I can't take it anymore

Have you seen her, have you seen him  
have you seen them  
I don't know  
Better think it over, better look out  
I gotta go  
Escalator, elevator, butt in front of the line  
Gotta get ahead turn my back just a matter of time

Straight up- take a leap  
The buzz is out- out on the street  
Pressure- too heavy for me  
Everyone I meet- seems to agree

Party parasite  
Hanging around bothering me  
Transparent user  
Looking through you nothing to see  
Manipulating looser  
What do you have whats in it for me
