

All my life I have been a drifter  
Going down the paths that had no ending  
With Satan on my shoulder,  
I was an angel of the underground  
Nothing could ever stop me

You're losing all, losing all of control  
In the end you will fall  
Losing all, you're losing all  
Your soul... will it ever be whole?

I am terrified  
In the dark there's no light  
She's at the end of the line  
but she wants to live (to live)  
He tastes the fear in her eyes  
At the end of this night she will be... gone

What you have taken away from me  
Can never come back, I cry, all night  
The memories I've been given,  
while the future you have taken  
You left me but a picture in a frame  
(nothing will ever be the same)

Listen son, I'm the one, can't you see...  
I was here all along  
The choice you made can't be undone  
Now the price you will pay

You'll be electrified  
It's the end of your life  
Cause tonight the stars will shine,  
but not for you (feel it)  
Feel the power of light  
You're at the end of the road

You're in my world now, my soul to keep  
Eternity is a long way to go  
In my world now, your soul is mine  
You see there's no way out  
For eternity  
This is where you will be,  
"Please let me out of here!"  
For eternity  
I will keep you down here,  
"Is there no way out?"  
"I can't get out, out of here!"  
Is there anybody listening? To me..."  
You can't get out, out of here  
"I all alone in the dark..."  
It's the end of the line, where you'll be...
