

## I'm Alive

Cirith Ungol

I shiver when I remember  
The things that I have seen  
I know the light, I know the Night  
I have walked with things unseen  
I have been a king invincible  
I've been the poorest of the poor  
I've pulled the mighty from their thrones  
And laughed at Death's own door

'Cause I'm alive, I'm alive  
I'm alive, I'm alive

I roamed the world in search of life  
Death followed in my wake  
I searched for truth, I want the truth  
And learned more than I could take  
I've walked the roads of mystery  
And it's aged me much too soon  
I've paid the piper and I've paid him well  
But he still calls the tune

I'm alive  
I'm alive  
I'm alive  
I'm alive

I shiver when I remember  
The shadow of the past  
The lonely ways, the lonely days  
When every breath might be my last  
I lost my heart, I lost my soul  
By every hand betrayed  
But I've still got strength, I've still got life  
And that will never change

'Cause I'm alive, I'm alive  
I'm alive, I'm alive

I'm alive  
I'm alive  
I'm alive  
I'm alive  
I'm alive
