## DFW

**Citizen Cope** 

I was at DFW, I had to call you I had to say goodbye to my baby today Reminded of the days abode to save the air force base Well boo, you are a star, you always are You are so full of grace And we ain't spoken in so so long, but I think about you everyd ay It's been a hard living, 'cuz you never know When you be lifted from the gift of living I try to keep it hidden, but the tears burn down my face She came to me from heaven, but right now I gotta put her on a 727 I promised it'd be different, but it makes me lie today

If all we have is a story to pass and a memory to embrace And all of this, I had to say goodbye to my baby today I had to say bye bye to my baby Had to say bye bye, goodbye, go odbye to my baby today

I had to say goodbye, goodbye, goodbye to my baby today [x4]
