

# I Couldn't Explain Why

Citizen Cope

In a couple of hours  
The morning is coming  
And I'm hittin' the door runnin',  
The gasoline is burning  
And I couldn't explain why

The message that I have been given  
Could have us drown  
In the river  
Still I gotta deliver it  
And I couldn't explain why

I hold a couple of grudges  
Could have had a couple of touches  
If I hadn't had a couple of crutches  
And I couldn't explain why

The world keeps turning  
The sun keeps burning  
For all to learn what  
Heavens only knows  
Why do some  
Get taken too young  
All these answers  
That heaven only knows

The wheels are turning  
Churching all types of emotion  
Strong as the oceans  
And I couldn't explain why

This message that I have been given  
Could have me drown by the river  
Still I gotta deliver it  
And I couldn't explain why

I hold a couple of grudges  
Could have had a couple of touches  
If I hadn't had a couple on crutches  
And I couldn't explain why
